

## Confirmation for compliance with the GPSR

Beurer is supporting member of the German Hypertension Society

Beurer is supporting member of the German Diabetes Foundation

Ulm, 28.11.2024

Dear Sir or Madam,

We hereby confirm that Beurer GmbH, as a manufacturer established in the European Union, complies with the requirements of the General Product Safety Regulation (EU) 2023/988 (GPSR).

In particular, we confirm compliance with the following specific requirements:

Requirements for labeling and product identification:

- Name, registered trade name or trademark, postal address, and electronic address (article 9 (6), article 19 (a))
- Type, batch, or serial number (article 9 (5))
- Product images (article 19 (c))
- Product type (article 19 (c))
- Additional product identifiers (article 19 (c))

The above information is provided on the device, its packaging, and/or in the instructions for use (article 9). In addition, all products are accompanied by clear instructions and safety information (article 9 (7), article 19 (d)).

Internal risk analysis and technical documentation are available for all products (article 9 (2)).

The information provided above reflects the current state of legislation and its implementation.

Kind regards,

Marco Bühler
